MANUFACTURING FACILITIES

Abcon is one of Ireland and the UK's leading independent coated abrasive converters. We manufacture sanding belts in a wide variety of sizes starting from just 3mm wide for narrow file belts, and up to 1.5 meters wide for wide sanding belts.

We have developed a complete product range for all your flat, profile, stroke, pad and wide belt sanding operations.

From this extensive product range, we can specify the most suitable product for the customer to achieve an efficient sanding operation.

CALL OUR TEAM ON (049) 555 2340 FOR A SALES QUOTE NOW OR CONTACT US TO DISCUSS YOUR PARTICULAR REQUIREMENTS IN MORE DETAIL!

1 velvet Net backed abrasive

2 Foam cushioning

3 siafast fastening system

Siaair VELVET TECHNOLOGY

The inside of this clever net-backed abrasive disc consists of a middle foam cushion to equalise application pressure, and a well proven siafast fastening system, keeping everything tightly held, making your work shine and achieving the best possible finish.

- Very long lifetime
- Low scratch depth
- Equalizing application pressure
- Waterproof and washable
- Minimum clogging when sanding dry
- Can be used many times
- Absorbs water
- Resistant to silicon remover
- Air and water permeability

FINISHING OF SOLID SURFACE (CORIAN®)

STEP 1

MATT FINISHING OF GLUE JOINTS OR REMOVAL OF DEEP SCRATCHES

Use Premium Velcro Discs in grit P180 - P500 for Blending Glue Joints and for Removal of Deep Scratches.

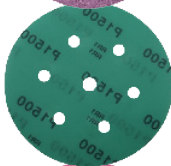

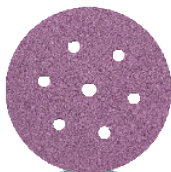

Grit P800 gives you a perfect Matt Finish

STEP 2

SATIN FINISHING OF FLAT SURFACE

Use Premium Velcro Discs in grit P800 - P2000 to achieve Satin Finish on Plain Surface.

Please skip STEP1 or use Premium Velcro Discs in grit P500-P800 if surface is without Scratches and Glue Joints

EVERCOAT FILLERS, PRIMERS & POLISHING COMPOUNDS

RAGE GOLD - PREMIUM LIGHT FILLER

It's thick crème consistency spreads very smoothly with less surface texture. Rage Gold is formulated with a premium quality resin for optimum curing performance and is specially designed to sand with minimal effort. It has excellent adhesion to steel, aluminum and zinc.

Apply in thin layers and spread smoothly.

Working time: 3-4 minutes

Dry to Sand Time: 15 minutes with clog free sanding even in extreme temperature conditions

38mm x 50M	48	1650.4038
48mm x 50M	36	1650.5048

Characteristics

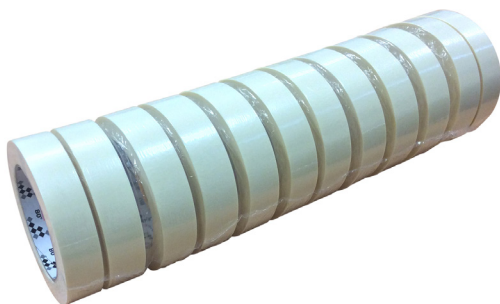

Adhesive tape manufactured with crepe paper and pressure sensitive, medium adhesion and rubber-resin adhesive.

Very conformable, good tensile strength and strong holding. Designed for applications where baking is required with temperatures up to 80°C. Good tape-on-tape adhesion. Solvent, water and oil resistant.

Applications

Used on surfaces like, glass aluminum, steel, paper or plastic masking, plastics, rubber mouldings, chrome parts, plastic parts, wood and other flat surfaces.

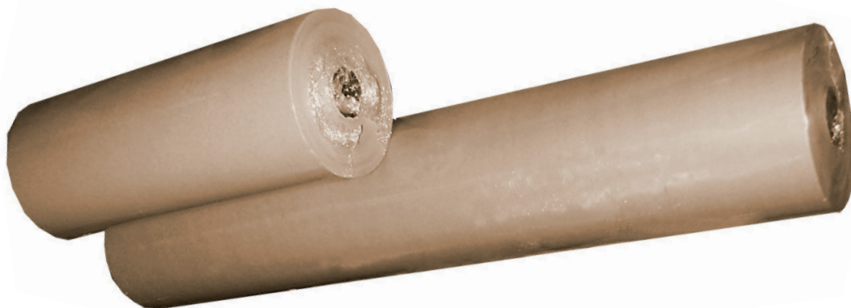

Removes easily without staining or leaving residue.

HAND CARE

Your hands are
your most valuable tools!

Every day, millions of tradesmen go to work in various industrial branches. Their hands are exposed daily to many harmful situations.

Our skin protects our body by forming a barrier against bacteria and aggressive substances such as oil, grease, paint, lacquer, ink, etc.

This can result in:

- Serious skin problems
- Reduced productivity
- Absenteeism
- Higher costs (medical and other)

With quality products and a good hand care program from Dreumex, these problems can be avoided.

Dreumex Products Offer:

Protection

Protection against the wear and tear of hard-working hands!

Cleansing

Cleansing of the toughest dirt and soils!

Sanitizing

Sanitizing the most harmful of bacteria!

Conditioning

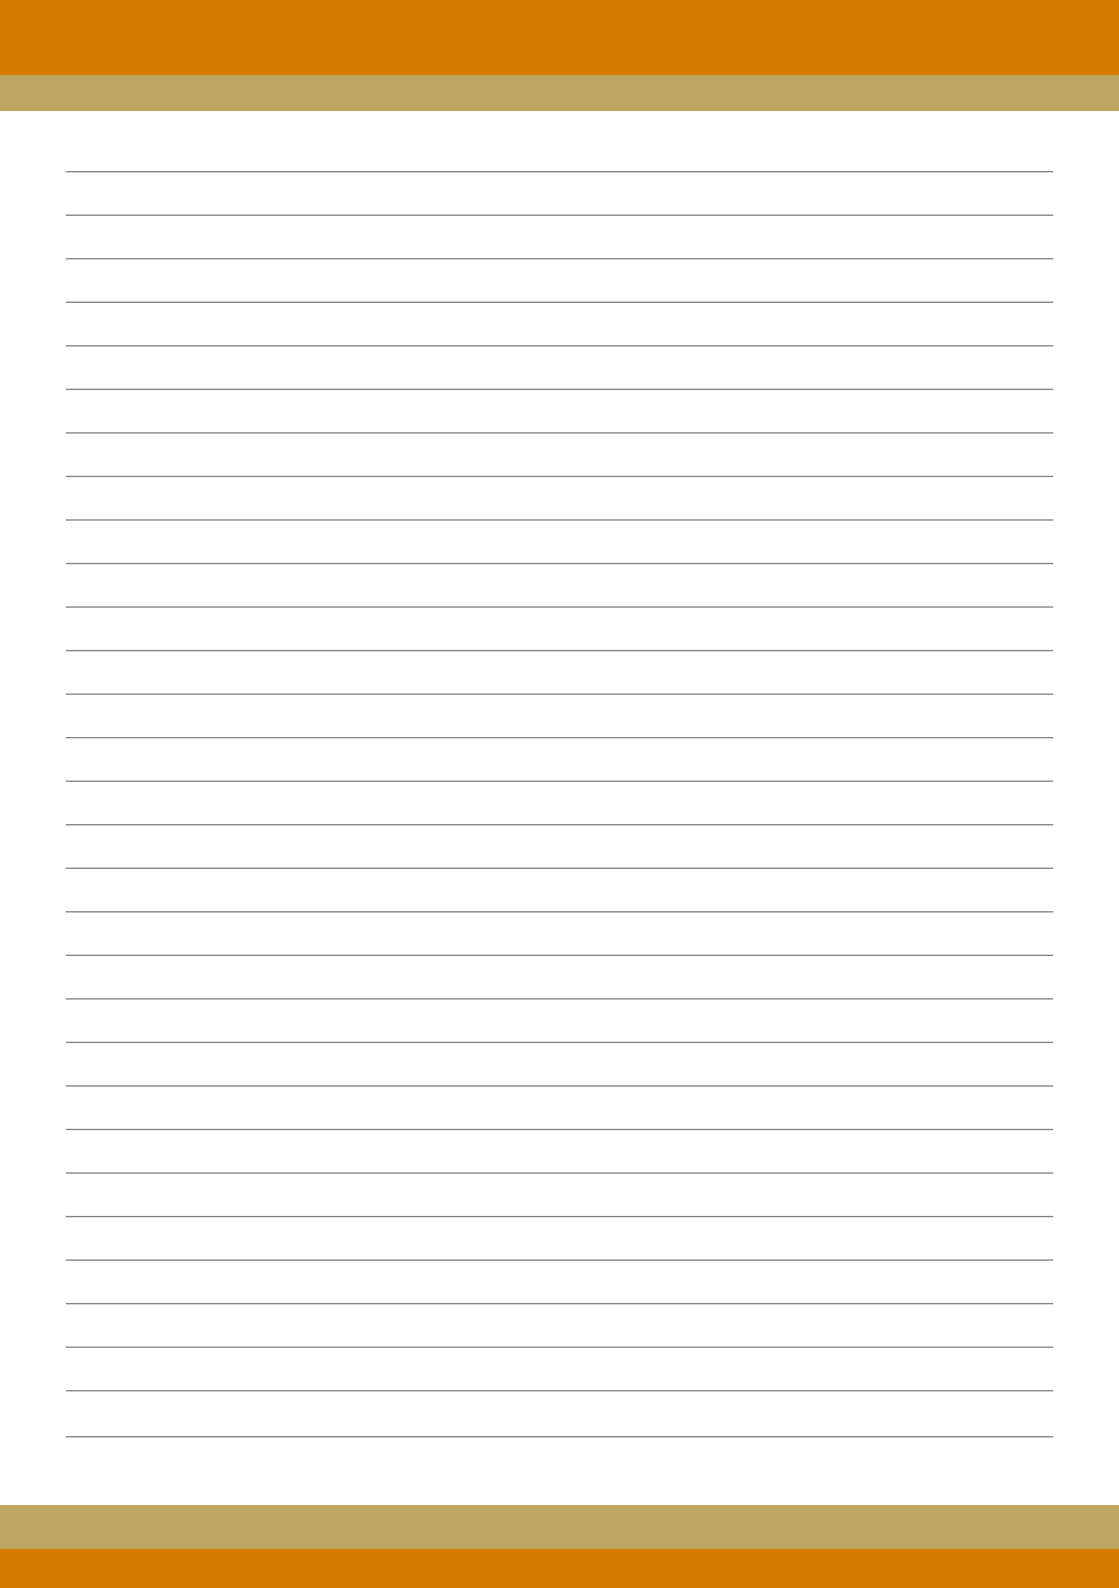

Conditioning your hands to soften and prevent your skin from the threat of disease.

Dispensers

Dispensers which save you time and money by supplying you with the optimal amount of product in each pump.
